

Guadalupe River – Tasman to Interstate 880 Project

This flood protection project is on the Guadalupe River between Tasman Drive in Santa Clara and Interstate 880 in San Jose.

You're invited to our community meeting!

Valley Water is dedicated to keeping residents and businesses safe through its flood protection programs. The Guadalupe River - Tasman Drive to Interstate 880 Project will restore the river's flood protection level to its design capacity of a 100-year flood and provide natural flood protection for residents and businesses. A 100-year-flood means the river should be able to withstand flooding in the event of a large and rare storm event which has a one in-100 (1 percent) chance of occurring in any given year. The project limits are from Tasman Drive in Santa Clara to Interstate 880 near Airport Parkway in San Jose.

The project is currently in the planning phase with Valley Water evaluating the best possible alternatives to reducing flood risks. A completed project will provide protection from flooding and preserve structural integrity of stream banks. In addition, it will minimize environmental impacts and protect the creek's habitat.

Please join us for a meeting that will provide an overview of the project, an opportunity to ask questions of the project team, and provide us your input on the conceptual alternatives for the project.

You can also join us on Facebook Live: www.facebook.com/scvwd 

When:

Monday, Sept. 23, 2019
6:30 – 8:00 p.m.

Where:

Hughes Elementary School
Multipurpose Room
1949 Calle De Escuela
Santa Clara, CA 95054

RSVP:

rsvp@valleywater.org

RSVPs are highly encouraged.

About Valley Water

Valley Water manages an integrated water resources system that includes the supply of clean, safe water, flood protection and stewardship of streams on behalf of Santa Clara County's 2 million residents. Valley Water is the flood protection authority for Santa Clara County, annually preparing creeks for winter rains through levee maintenance, sediment removal, bank repair and vegetation management. We have invested more than \$1 billion in flood protection efforts to protect nearly 100,000 parcels with many more projects planned. Valley Water performs work annually under its Stream Maintenance Program to repair damages to creeks to reduce the risk of flooding and keep our communities safe.

For more information, contact Neighborhood Liaison, **Matt Wilson** at **(408) 630-2623** or by email at MWilson@valleywater.org.
