Los Gatos Creek Bank Repair

The Santa Clara Valley Water District is repairing an eroded bank site along Los Gatos Creek, between San Fernando Street and Park Avenue in San Jose.

This project will repair 170 feet of creek bank that eroded during the past winter storms and other high water flow events, and includes the removal of a few invasive trees and fallen debris from trees. The work will reshape and line the banks with rock to prevent future erosion and improve water quality in the channel. The repairs will also minimize sediment build-up and maintain the creek's capacity to carry floodwaters while sustaining a stable and healthy creek ecosystem.

What to expect

Work began on August 17 and will take approximately six weeks to complete.* Work hours are 8 a.m. to 4 p.m., Monday through Friday. In the unlikely event of delays, work hours may include Saturday.

A five-person crew is working at the project site using an excavator, a loader, dump trucks, water trucks and street sweepers. Expect typical construction noise from heavy equipment during work hours.

Trucks and crews access the creek from the Creative Security Company parking lot on S. Autumn Street. Expect no road closures, but there may be traffic control or flaggers at times during work for safety.

** Project start dates and duration may vary due to site conditions and equipment availability.*
