### BOARD GOVERNANCE POLICIES AND PERFORMANCE

The board’s governance policies provide for fiduciary oversight, transparency, and accountability to further organizational stewardship, which contributes both to the effectiveness of the organization and to the trust that is placed in it by stakeholders and the public it serves.

These governance policies provide the basis for the board’s performance monitoring framework, which was established in 2013, and annually reviewed during open, public meetings of the board. Specifically, the expectation that the board will monitor its performance against its own policies is defined by Governance Process Policy 2.7:

“The board will monitor the board’s process and performance. Self-monitoring will include comparison of board activity and discipline to policies in the Governance Process and Board-BAO Linkage categories.”

Enclosed in this report are the results of the board’s review of its own performance for calendar year 2016.
