Potential North County Groundwater Benefit Zone Changes

Estimated rate impacts for well owners already in a zone

Increase of $2 per AF or less than $1 per month

Decrease of $358 per AF or $21 per month

Estimated rate impacts for areas added or removed

New rate of $817 to $1,177 per AF or $54 to $75 per month

No longer subject to rates

2. Rate impacts are estimated based on adopted FY 2018 rates. Assumes 2,500 cubic feet groundwater use per month based on average domestic pumping in Santa Clara County. Impact will vary depending on groundwater use and final rate adopted. AF = Acre-Foot or 325,851 gallons.

3. Information is subject to change. Any change to a groundwater benefit zone or rate must be approved by the Valley Water Board of Directors.
