Estimated rate impacts for well owners remaining in a zone

- Decrease of $167 per AF or about $10 per month
- Decrease of $47 per AF or about $3 per month
- Increase of $20 per AF or about $1 per month

Estimated rate impacts for areas added or removed

- Decrease of $167 per AF or about $10 per month
- No longer subject to rates
- New rate of $337 to $524 per AF or about $19 to $30 per month

1. Zone recommendations are based on the Preliminary Zone of Benefit Study, available at www.valleywater.org/gwbenefits, and Valley Water staff recommendations.
2. Rate impacts resulting from the recommended zone changes are estimated based on preliminary FY 2021 rates. Estimated monthly water cost increases or decreases are based on average domestic pumping in Santa Clara County. Agricultural rates are not expected to change based on zone changes. AF = Acre-Foot or 325,851 gallons.
3. This information is preliminary and subject to change. Existing zones and rates remain in effect until final benefit zones and rates are approved by the Valley Water Board of Directors and become effective.

January 2020 DRAFT - Subject to Change
