The special meeting of the Agricultural Water Advisory Committee is scheduled to be held on Monday, February 24, 2020, at 1:30 p.m., in the Headquarters Building Conference Room A143 (you will need to be escorted) located at the Santa Clara Valley Water District, 5700 Almaden Expressway, San Jose, California. Refreshments will be served.

Enclosed are the meeting agenda and corresponding materials. Please bring this packet with you to the meeting. Additional copies of this meeting packet are available on our new website at https://www.valleywater.org/how-we-operate/committees/board-advisory-committees.

A majority of the appointed membership is required to constitute a quorum, which is fifty percent plus one. A quorum for this meeting must be confirmed at least 48 hours prior to the scheduled meeting date or it will be canceled.

Further, a quorum must be present on the day of the scheduled meeting to call the meeting to order and take action on agenda items.

Members with two or more consecutive unexcused absences will be subject to rescinded membership.

Please confirm your attendance no later than 1:00 p.m., Thursday, February 20, 2020, by contacting Ms. Glenna Brambill at 1-408-630-2408, or gbrambill@valleywater.org.

Enclosures
Santa Clara Valley Water District - Headquarters Building,
5700 Almaden Expressway, San Jose, CA 95118

From Oakland:
- Take 880 South to 85 South
- Take 85 South to Almaden Expressway exit
- Turn left on Almaden Plaza Way
- Turn right (south) on Almaden Expressway
- At Via Monte (third traffic light), make a U-turn
- Proceed north on Almaden Expressway approximately 1,000 feet
- Turn right (east) into the campus entrance

From Morgan Hill/Gilroy:
- Take 101 North to 85 North
- Take 85 North to Almaden Expressway exit
- Turn left on Almaden Expressway
- Cross Blossom Hill Road
- At Via Monte (third traffic light), make a U-turn
- Proceed north on Almaden Expressway approximately 1,000 feet
- Turn right (east) into the campus entrance

From Sunnyvale:
- Take Highway 87 South to 85 North
- Take Highway 85 North to Almaden Expressway exit
- Turn left on Almaden Expressway
- At Via Monte (third traffic light), make a U-turn
- Proceed north on Almaden Expressway approximately 1,000 feet
- Turn right (east) into the campus entrance

From San Francisco:
- Take 280 South to Highway 85 South
- Take Highway 85 South to Almaden Expressway exit
- Turn left on Almaden Plaza Way
- Turn right (south) on Almaden Expressway
- At Via Monte (third traffic light), make a U-turn
- Proceed north on Almaden Expressway approximately 1,000 feet
- Turn right (east) into the campus entrance

From Downtown San Jose:
- Take Highway 87 - Guadalupe Expressway South
- Exit on Santa Teresa Blvd.
- Turn right on Blossom Hill Road
- Turn left at Almaden Expressway
- At Via Monte (first traffic light), make a U-turn
- Proceed north on Almaden Expressway approximately 1,000 feet
- Turn right (east) into the campus entrance

From Walnut Creek, Concord and East Bay areas:
- Take 680 South to 280 North
- Exit Highway 87-Guadalupe Expressway South
- Exit on Santa Teresa Blvd.
- Turn right on Blossom Hill Road
- Turn left at Almaden Expressway
- At Via Monte (third traffic light), make a U-turn
- Proceed north on Almaden Expressway approximately 1,000 feet
- Turn right (east) into the campus entrance

San Jose, CA 95118

SPECIAL MEETING
AGENDA

Monday, February 24, 2020
1:30 PM

District Mission: Provide Silicon Valley safe, clean water for a healthy life, environment and economy.

Note: The finalized Board Agenda, exception items and supplemental items will be posted prior to the meeting in accordance with the Brown Act.
1. CALL TO ORDER:

   1.1. Roll Call.

2. TIME OPEN FOR PUBLIC COMMENT ON ANY ITEM NOT ON THE AGENDA.

   Notice to the public: This item is reserved for persons desiring to address the Committee on any matter not on this agenda. Members of the public who wish to address the Committee on any item not listed on the agenda should complete a Speaker Form and present it to the Committee Clerk. The Committee Chair will call individuals in turn. Speakers comments should be limited to two minutes or as set by the Chair. The law does not permit Committee action on, or extended discussion of, any item not on the agenda except under special circumstances. If Committee action is requested, the matter may be placed on a future agenda. All comments that require a response will be referred to staff for a reply in writing. The Committee may take action on any item of business appearing on the posted agenda.

3. ACTION ITEMS:

   3.1. Review and Comment to the Board on the Fiscal Year 2020-21 Preliminary Groundwater Production Charges.

      Recommendation: Discuss and consider the attached preliminary groundwater production charge analysis and provide comment to the Board on policy implementation, as necessary.

      Manager: Darin Taylor, 408-630-3068

      Attachments: Attachment 1: PowerPoint Presentation

      Est. Staff Time: 30 Minutes

4. CLERK REVIEW AND CLARIFICATION OF COMMITTEE REQUESTS.

   This is an opportunity for the Clerk to review and obtain clarification on any formally moved, seconded, and approved requests and recommendations made by the Committee during the meeting.

5. ADJOURN:

   5.1. Adjourn to Regular Meeting at 1:30 p.m., on Monday, April 6, 2020, in the Santa Clara Valley Water District HQ Boardroom, 5700 Almaden Expressway, San Jose, California.
COMMITTEE AGENDA MEMORANDUM

Agricultural Water Advisory Committee

SUBJECT:
Review and Comment to the Board on the Fiscal Year 2020-21 Preliminary Groundwater Production Charges.

RECOMMENDATION:
Discuss and consider the attached preliminary groundwater production charge analysis and provide comment to the Board on policy implementation, as necessary.

SUMMARY:

Summary of Groundwater Production Charge Analysis:

Staff has prepared the preliminary FY 2020-21 groundwater production charge analysis, which includes several scenarios for Board review. Staff has developed a baseline scenario that aligns with the 80% level of service goals per the Water Supply Master Plan approved by the Board in November 2019, along with several other scenarios for Board consideration. Staff is seeking Board input on the preliminary analysis to incorporate into the development of the groundwater production charge recommendation.

The groundwater production charge recommendation will be detailed in the Annual Report on the Protection and Augmentation of Water Supplies that is planned to be filed with the Clerk of the Board on February 28, 2020. The public hearing on groundwater production charges is scheduled to open on April 14, 2020. It is anticipated that the Board would set the FY 2020-21 groundwater production charges by May 12, 2020, that would become effective on July 1, 2020.

The FY 2020-21 groundwater production charge and surface water charge setting process will be conducted consistent with the District Act, and Board resolutions 99-21 and 12-10.

Water Use Assumptions

District managed water use for FY 2018-19 is estimated to be approximately 208,000 acre-feet (AF), roughly 19,000 AF lower than budgeted due to a wet winter and wet spring. If the wet winter and wet spring were to repeat for the current year FY 2019-20, then there would be a 30,000 AF water usage shortfall versus budget, which would translate to an estimated $40 million revenue shortfall. Wet springs have happened roughly 30% of the time over the past two decades, so the likelihood of a repeat is low but still possible. The current water demand projection for FY 2020-21 is 251,000 AF,
which is approximately a 21% increase compared to the FY 2018-2019 estimate. Staff believes that the water demand projection should be adjusted downward to 230,000 AF for FY 2020-21. This adjustment would better align with the FY 2017-18 actuals (which did not include a wet spring) and includes consideration for the impact of ramping up production at San Jose Water Company’s Montevina Treatment Plant, which uses non-District sourced water. The preliminary groundwater charge scenarios discussed in the following section are based on a reduced water demand projection of 230,000 AF in FY 2020-21, and then assumes a very small amount of growth in the following years.

Staff will continue to carefully monitor monthly water use actuals and work closely with the water retailers during the upcoming rate setting process to modify the water usage forecast as necessary.

**Groundwater Production Charge Projections**

Staff has prepared the following scenarios for Board consideration:

**Scenario 1) Baseline: Water Supply Master Plan (WSMP) 80% Level of Service (LOS)**

This scenario includes the following projects and assumptions:

- Baseline Projects according to the WSMP including the Almaden Valley Pipeline Replacement, Land Rights - South County Recycled Water Pipeline, and Supervisory Control and Data Acquisition (SCADA)/Water Treatment Plant/ Distribution System Implementation Projects;
- Delta Conveyance (State side only);
- No Regrets Package projects;
- Potable Reuse Phase 1 to produce 24,000 AF (assume operations start in FY 28);
- Pacheco Reservoir Expansion (assumes $485M Proposition 1 grant, $250M of WIIN Act Funding, 20% Partnerships);
- Transfer-Bethany Pipeline;
- South County Recharge (assume facilities built beyond FY 2029-30);
- $200M warranty placeholder cost for dams and Water Treatment Plants.

**Scenario 2) No WIIN Act Funding**

Includes the same projects and assumptions as Scenario 1 except as follows:

- Assumes $0 WIIN Act Funding instead of $250M.

**Scenario 3) Revised Purified Water Program**

Includes the same projects and assumptions as Scenario 2 except as follows:

- Replaces Potable Reuse Phase 1 placeholder project with a $614M Potable Reuse Project based on the recently signed agreement with Palo Alto and Mountain View to produce 13KAF by FY 30, and;
- Assumes that the District builds, finances and operates the facilities (i.e. not delivered via a Public-Private Partnership or P3) and therefore the P3 reserve is eliminated.

**Scenario 4) Add Delta Conveyance Central Valley Project (CVP) side investment**

Includes the same projects and assumptions as Scenario 3 except as follows:
• Adds the Delta Conveyance CVP side costs.

**Scenario 5) Add back $250M of WIIN Act Funding**

Includes the same projects and assumptions as Scenario 4 except as follows:
- Adds back $250M of WIIN Act funding

**Scenario 6) Add Los Vaqueros Reservoir Expansion**

Includes the same projects and assumptions as Scenario 5 except as follows:
- Includes investment in Los Vaqueros Reservoir Expansion

**Scenario 7) No Investment in Los Vaqueros Reservoir Expansion, Add $200M Placeholder for Purified Water**

Includes the same projects and assumptions as Scenario 6 except as follows:
- Removes investment in Los Vaqueros Reservoir Expansion
- Adds $200M placeholder investment in Purified Water Program to produce incremental new water supply in North County

**Scenario 8) $650M Placeholder for Purified Water**

Includes the same projects and assumptions as Scenario 7 except as follows:
- Replace $200M placeholder with $600M placeholder for North County and $50M placeholder for South County for Purified Water Program investments to produce incremental new water supply

For North County M&I groundwater production, the scenarios range from an increase of 8.0% to 9.6% for FY 2020-21, and from 4.7% to 5.6% for South County M&I groundwater production depending on the scenario.

The overall impact of the Scenarios for FY 2020-21 to the average household would be an increase ranging from $3.79 to $4.54 per month in North County and from $0.78 to $0.93 per month in South County.

**Transition to modified Groundwater Benefit Zones**

On October 8, 2019, the Board directed staff to pursue modifying the existing groundwater benefit zones W-2 and W-5, and to create two new zones W-7 (Coyote Valley) and W-8 (below Uvas and Chesbro Reservoirs), effective July 1, 2020. New metes and bounds (the legal description that defines the boundaries of the zones) will be developed for Board consideration in accordance with Santa Clara Valley Water District Act requirements. Accordingly, staff has engaged Raftelis Financial Consultants to assist with analyzing cost allocations between the modified zones that would support corresponding modified groundwater charges for each zone for FY 2020-21.

Staff has prepared an analysis that translates the preliminary FY 21 M&I groundwater charge for Scenario 1 (which includes the reduced water usage projection) for the existing groundwater benefit zones, to the new or modified groundwater benefit zones. For the North County, the preliminary FY 21 M&I groundwater charge for the existing zone W-2 is $1,484.61/AF, versus $1,485.29/AF for...
modified Zone W-2, resulting in a minor $0.69/AF difference. For the South County, the preliminary FY 21 M&I groundwater charge for the existing zone W-5 is $504.00/AF versus $457.00/AF for modified Zone W-5 (a decrease of $47.00/AF); $524.00/AF for new Zone W-7 (an increase of $20.00/AF); and $337.00/AF for new Zone W-8 (a decrease of $167.00/AF).

The M&I groundwater charge decrease in modified Zone W-5 and increase in new Zone W-7 relative to existing Zone W-5 is primarily driven by the fact that 56% of the water managed by Valley Water associated with the Anderson/Coyote reservoir system, CVP imported water, and the future expanded Pacheco Reservoir, would be used to recharge the groundwater basin underlying new Zone W-7, while only 44% of that water would be used to recharge the modified Zone W-5. It follows that costs allocated to the zones would reflect the distribution of water to recharge those zones. However, Zone W-7 only accounts for 22% of the groundwater pumping in South County, while modified Zone W-5 accounts for 76%. Since the percentage of cost being allocated to each zone differs from the percentage of water usage attributed to each zone, it stands to reason that the groundwater charge per acre-foot required for cost recovery would diverge between Zone W-7 and modified Zone W-5 relative to the existing Zone W-5.

Zone W-8 on the other hand does not benefit from the Anderson/Coyote reservoir system, CVP imported water, or the future expanded Pacheco Reservoir. Nor does it benefit from the recycled water facilities operated by Valley Water in partnership with the South County Regional Wastewater Authority located in Gilroy. Therefore, it stands to reason that the modified Zone W-8 would experience a significant decrease in the preliminary groundwater charge relative to the existing Zone W-5.

Other Assumptions

All scenarios assume the continued practice of relying on the State Water Project (SWP) Tax to pay for 100% of the SWP contractual obligations. Pursuant to Water Code Section 11652, the District, whenever necessary, is required to levy on all property in its jurisdiction not exempt from taxation, a tax sufficient to provide for all payments under its SWP contract with the California Department of Water Resources (DWR). All scenarios assume no change in the SWP Tax for FY 2020-21, which would remain at $18M. The SWP Tax for the average household in Santa Clara would remain at about $27 per year.

All scenarios also assume the continued practice to set the South County agricultural groundwater production charge at 6% of the M&I charge until FY 2022.

</tbody>
</table>

#### Key Questions

1. **Will water usage bounce back in FY 20?**
   - Wet springs occur about 30% of the time
   - A repeat of FY 19 water usage = $40M revenue shortfall

2. **Should water usage forecast be adjusted downward for FY 21 & beyond?**
   - Prelim GW charge scenarios based on 230KAF

#### Next Steps

- Discuss water usage trends/projections with retailers
- Continue to monitor FY 20 water usage actuals

---

Note: TW = Treated Water, GW = Groundwater, SW/RW = Surface Water and Recycled Water

Financial Analysis: Preliminary Cost Projection
**Investment Scenarios**

1) **Baseline: WSMP 80% Level Of Service**
   - **Baseline Projects**
     - Almaden Valley Pipeline Replacement
     - Land Rights - South County RW Pipeline
     - SCADA, WIP, Distr. Sys. Implementation
     - Delta Conveyance (State side)
     - Delta Conveyance (CVP side)
     - No Regrets Package
   - Delta Conveyance (State side)
     - Paid for by water charges, not SWP Tax
   - Delta Conveyance (CVP side)
     - Paid for by water charges, not SWP Tax
   - No Regrets Package
   - Potable Reuse Phase 1 to produce 24KAF by FY 28
     - Based on $690M capital project, District contributes 30% “pay as you go”
     - P3 reserve at $10M in FY 21 growing to $20M by FY 28
   - Pacheco Reservoir
     - $250M WIIN funding + WIFIA loan
     - Partner Agencies pay 20% of project
   - Transfer-Bethany Pipeline
     - South County Recharge
     - Timing = beyond FY 30
     - $200M warranty placeholder for dams & WIP’s
   - Exceeds 80% LOS goal

2) **Baseline, No WIIN + Revised Purified Wtr**
   - **Baseline Projects**
     - Almaden Valley Pipeline Replacement
     - Land Rights - South County RW Pipeline
     - SCADA, WIP, Distr. Sys. Implementation
   - No Regrets Package
   - Potable Reuse Palo Alto Agreement to produce 13KAF by FY 30
     - Based on $614M IPR capital project, District builds, finances and operates (Not a P3)
     - P3 reserve at $10M in FY 21 growing to $20M by FY 28
   - Pacheco Reservoir
     - $250M WIIN funding + WIFIA loan
     - Partner Agencies pay 20% of project
   - Transfer-Bethany Pipeline
     - South County Recharge
     - Timing = beyond FY 30
     - $200M warranty placeholder for dams & WIP’s
   - Exceeds 80% LOS goal

3) **Baseline, No WIIN + Revised PW + CVP**
   - **Baseline Projects**
     - Almaden Valley Pipeline Replacement
     - Land Rights - South County RW Pipeline
     - SCADA, WIP, Distr. Sys. Implementation
   - No Regrets Package
   - Potable Reuse Palo Alto Alt 1 to produce 13KAF by FY 30
     - Based on $614M IPR capital project, District builds, finances and operates (Not a P3)
     - P3 reserve at $10M in FY 21 growing to $20M by FY 28
   - Pacheco Reservoir
     - $250M WIIN funding + WIFIA loan
     - Partner Agencies pay 20% of project
   - Transfer-Bethany Pipeline
     - South County Recharge
     - Timing = beyond FY 30
     - $200M warranty placeholder for dams & WIP’s
   - Exceeds 80% LOS goal

4) **Baseline, No WIIN + Revised PW + CVP side**
   - **Baseline Projects**
     - Almaden Valley Pipeline Replacement
     - Land Rights - South County RW Pipeline
     - SCADA, WIP, Distr. Sys. Implementation
   - No Regrets Package
   - Potable Reuse Palo Alto Alt 1 to produce 13KAF by FY 30
     - Based on $614M IPR capital project, District builds, finances and operates (Not a P3)
     - P3 reserve at $10M in FY 21 growing to $20M by FY 28
   - Pacheco Reservoir
     - $250M WIIN funding + WIFIA loan
     - Partner Agencies pay 20% of project
   - Transfer-Bethany Pipeline
     - South County Recharge
     - Timing = beyond FY 30
     - $200M warranty placeholder for dams & WIP’s
   - Exceeds 80% LOS goal

* Includes but not limited to dam seismic retrofits, Rinconada WTP reliability improvement, 10-year pipeline rehabilitation program
6) Baseline + Revised PW + CVP + LVE
   - Baseline Projects *
     - Almaden Valley Pipeline Replacement
     - Land Rights - South County RW Pipeline
     - SCADA, WIP, Distr. Sys. Implementation
   - Delta Conveyance (State side)
     - Paid for by water charges, not SWP Tax
   - Delta Conveyance (CVP side)
   - No Regrets Package
   - Potable Reuse Palo Alto Alternative 1 to produce 13KAF by FY 30
     - Based on $614M IPR capital project, District builds, finances and operates (Not a P3)
     - P3 reserve at $10M in FY 21 growing to $20M by FY 28
   - Pacheco Reservoir
     - $250M WIIN funding + WIFIA loan
   - Partner Agencies pay 20% of project
   - Transfer-Bethany Pipeline + LVE
   - South County Recharge
     - Timing = beyond FY 30
   - $200M warranty placeholder for dams & WIPs

7) Baseline, Revised PW + CVP + $200M
   - Baseline Projects *
     - Almaden Valley Pipeline Replacement
     - Land Rights - South County RW Pipeline
     - SCADA, WIP, Distr. Sys. Implementation
   - Delta Conveyance (State side)
     - Paid for by water charges, not SWP Tax
   - Delta Conveyance (CVP side)
   - No Regrets Package
   - Potable Reuse Palo Alto Agreement to produce 13KAF by FY 30
     - Based on $614M IPR capital project, District builds, finances and operates (Not a P3)
     - P3 reserve at $10M in FY 21 growing to $20M by FY 28
   - $200M IPR Placeholder for North County for new water supply by FY 30
   - Pacheco Reservoir
     - $250M WIIN funding + WIFIA loan
   - Partner Agencies pay 20% of project
   - Transfer-Bethany Pipeline + LVE
   - South County Recharge
     - Timing = beyond FY 30
   - $200M warranty placeholder for dams & WIPs

8) Baseline, Revised PW + CVP + $650M
   - Baseline Projects *
     - Almaden Valley Pipeline Replacement
     - Land Rights - South County RW Pipeline
     - SCADA, WIP, Distr. Sys. Implementation
   - Delta Conveyance (State side)
     - Paid for by water charges, not SWP Tax
   - Delta Conveyance (CVP side)
   - No Regrets Package
   - Potable Reuse Palo Alto Agreement to produce 13KAF by FY 30
     - Based on $614M IPR capital project, District builds, finances and operates (Not a P3)
     - P3 reserve at $10M in FY 21 growing to $20M by FY 28
   - $600M IPR Placeholder for North & $50M for South County for new water supply by FY 30
   - Pacheco Reservoir
     - $250M WIIN funding + WIFIA loan
   - Partner Agencies pay 20% of project
   - Transfer-Bethany Pipeline + LVE
   - South County Recharge
     - Timing = beyond FY 30
   - $200M warranty placeholder for dams & WIPs

### How does the preliminary analysis translate to New and Modified Zones?

* Ag groundwater charge remains consistent between Existing and Modified zones to align with Board direction to maintain Open Space Credit policy as is through FY 21.

</table>

* FY 21 assumes Baseline Scenario with 230KAF water usage

- 5.0% decrease in FY21, then 4.7% projected average annual increases
- 8.9% increase in FY 21, then 8.9% projected average annual increases
- 30.0% decrease in FY 21, then 4.7% projected average annual increases
What is driving cost allocations between New and Modified Zones?

Zone W-7
- 22% of water use
- 56% of CVP, Anderson & Pacheco water distributed for groundwater recharge

Zone W-5
- 76% of water use
- 44% of CVP, Anderson & Pacheco water distributed for groundwater recharge

Summary

- Scenarios range from a 4.7% to 5.6% increase to the M&I groundwater charge in South County

- Potential FY 21 increase ranges from $0.78 to $0.93 per month for the average household in South County

- Board direction to be incorporated into Report on Protection and Augmentation of Water Supplies (PAWS) scheduled for February 28, 2020
