**Subject:** C0674 - RFQ P3 Additional Information

Dear RFQ Holders,

This is to inform all RFQ Holders, that in pursuant to Section 5.4 of the RFQ, Valley Water anticipates holding interviews with SOQ Respondents on August 4-6. Valley Water hereby clarifies that these meetings will be held virtually, not in-person. Once Valley Water has determined the number of responsive SOQ's, timeslots will be assigned randomly to individual Respondents. Although the exact duration of the interview will depend in part on the number of responsive SOQ's, interviews will be conducted by the Selection Panel and begin with Respondents being given approximately 15 minutes to deliver a presentation summarizing their SOQ and relevant qualifications, followed by a question and answer period.

Although others are welcome, Respondents should have Key Personnel designated in their SOQ present during the interview. More information will be provided after the SOQ submission deadline.
