**Subject:** Prequalification Application Typographical Error

Attention all Applicants:

Valley Water received ten Prequalification Applications timely submitted by 2 pm on September 25, 2020. Before opening any of the Prequalification Applications, Valley Water staff noticed a typographical error in one of the questions in Section 5.F. Comparable Project Experience. The typographical error in Projects 1, 2, and 3, question No. 8.c. which states:

“c. If “No” to question 7.b, did the contractor request a modification to the specifications for import material?  
  
Yes (2 points)      No (0 points)”

The reference in question 8.c. should have been to question 8.b. instead of 7.b. To fairly rectify this inadvertent typographical error, Valley Water will provide an additional “2” points in the scoring total for each Applicant on question 8.c., resulting in the total highest possible scores for Projects 1, 2, and 3 being 87 points instead of 85. The passing score of 50 points remains unchanged.
