Dear Mayor Liccardo:

In a Letter of Map Revision (LOMR) dated July 9, 2021, you were notified of proposed flood hazard determinations affecting the Flood Insurance Rate Map (FIRM) and Flood Insurance Study (FIS) report for the City of San Jose, Santa Clara County, CA. These determinations were for Silver Creek - from the confluence with Coyote Creek to approximately 2,500 feet upstream of Tully Road; Lake Cunningham - the area bounded by Cunningham Avenue to the north, South White Road to the east, Tully Road to the south, and Swift Lane to the west; North Babb Creek - from the confluence with Silver Creek to approximately 220 feet upstream of the confluence with Silver Creek; and South Babb Creek - from the confluence with Silver Creek to approximately 180 feet upstream of the confluence with Silver Creek. The 90-day appeal period that was initiated on July 28, 2021, when the Department of Homeland Security's Federal Emergency Management Agency (FEMA) published a notice of proposed Flood Hazard Determinations in *The San Jose Mercury News* has elapsed.

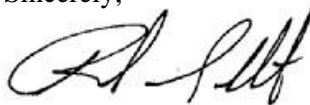

FEMA received no valid requests for changes to the modified flood hazard information. Therefore, the modified flood hazard information for your community that became effective on November 26, 2021, remains valid and revises the FIRM and FIS report that were in effect prior to that date.

The modifications are pursuant to Section 206 of the Flood Disaster Protection Act of 1973 (Public Law 93-234) and are in accordance with the National Flood Insurance Act of 1968, as amended (Title XIII of the Housing and Urban Development Act of 1968, Public Law 90-448), 42 U.S.C. 4001-4128, and 44 CFR Part 65. The community number(s) and suffix code(s) are unaffected by this revision. The community number and appropriate suffix code as shown above will be used by the National Flood Insurance Program (NFIP) for all flood insurance policies and renewals issued for your community.

FEMA has developed criteria for floodplain management as required under the above-mentioned Acts of 1968 and 1973. To continue participation in the NFIP, your community must use the modified flood hazard information to carry out the floodplain management regulations for the NFIP.

If you have any questions regarding the necessary floodplain management measures for your community or the NFIP in general, please contact the Mitigation Division Director, FEMA Region IX, in Oakland, California, either by telephone at (510) 627-7211, or in writing at 1111 Broadway, Suite 1200, Oakland, California, 94607-4052. If you have any questions regarding the LOMR, the proposed flood hazard determinations, or mapping issues in general, please call the FEMA Mapping and Insurance eXchange, toll free, at (877) 336-2627 (877-FEMA MAP).

Sincerely,

Patrick "Rick" F. Sacbibit, P.E., Branch Chief  
Engineering Services Branch  
Federal Insurance and Mitigation Administration

cc: The Honorable Mike Wasserman  
President, Santa Clara County Board of Supervisors

Ms. Arlene Lew  
Principal Engineering Technician/Floodplain Manager  
City of San Jose

Mr. Neville Pereira  
Development Services Manager  
Santa Clara County

Ms. Emily Zedler, P.E., Ph.D.  
Senior Engineer  
Santa Clara Valley Water District
