Est. Staff Time: 5 Minutes

4. ACTION ITEMS:

Recommendation:

A. Receive one-year follow-up report to August 28, 2018, Board-approved operational approach of funding the Safe, Clean Water and Natural Flood Protection (Safe, Clean Water) Program’s B4 Good Neighbor Program: Encampment Cleanup Project.

B. Select one of the following operational approaches for the Encampment Cleanup Project for Fiscal Years 2021-28 (FYs 21-28) for recommendation to the Board, or provide other feedback as the Homeless Encampment Ad Hoc Committee deems appropriate for Board consideration:

1. Reduce the number of cleanups each year to the B4 Key Performance Indicator (KPI) target of 52 annual cleanups for the duration of the Safe, Clean Water Program, funded by $175,000 a year from Safe, Clean Water (Fund 26) reserves; or

2. Continue with the current Board-approved operational approach to provide funding for 52 annual cleanups through Fund 26 reserves and supplement it with additional funding by utilizing 90 percent of the net rental income from properties purchased through Watersheds Stream Stewardship (Fund 12) reserves, resulting in an annual project budget of approximately $925,000; or

   2a. Continue current operational approach and monitor for an additional period; or

3. Supplement current Homeless Encampment Cleanup budget through additional funding from Fund 26 and Fund 12 reserves to meet the FY20 anticipated community demand and determine the budget on an annual basis.

5. CLERK REVIEW AND CLARIFICATION OF COMMITTEE REQUESTS.

This is an opportunity for the Clerk to review and obtain clarification on any formally moved, seconded, and approved requests and recommendations made by the Committee during the meeting.
6. **ADJOURN:**

6.1. Adjourn.
Every two years, during the last 10 days of January, communities across the country conduct comprehensive counts of the local homeless populations in order to measure the prevalence of homelessness in each local Continuum of Care.

The 2019 Santa Clara County Point-in-Time Count was a community-wide effort conducted on January 29th and 30th, 2019. In the weeks following the street count, a survey was administered to 1,335 unsheltered and sheltered individuals experiencing homelessness in order to profile their experience and characteristics.

COMMITTEE AGENDA MEMORANDUM

Homeless Encampment Ad Hoc Committee

SUBJECT:

RECOMMENDATION:
A. Receive one-year follow-up report to August 28, 2018, Board-approved operational approach of funding the Safe, Clean Water and Natural Flood Protection (Safe, Clean Water) Program’s B4 Good Neighbor Program: Encampment Cleanup Project.
B. Select one of the following operational approaches for the Encampment Cleanup Project for Fiscal Years 2021-28 (FYs 21-28) for recommendation to the Board, or provide other feedback as the Homeless Encampment Ad Hoc Committee deems appropriate for Board consideration:
   1. Reduce the number of cleanups each year to the B4 Key Performance Indicator (KPI) target of 52 annual cleanups for the duration of the Safe, Clean Water Program, funded by $175,000 a year from Safe, Clean Water (Fund 26) reserves; or
   2. Continue with the current Board-approved operational approach to provide funding for 52 annual cleanups through Fund 26 reserves and supplement it with additional funding by utilizing 90 percent of the net rental income from properties purchased through Watersheds Stream Stewardship (Fund 12) reserves, resulting in an annual project budget of approximately $925,000; or
      2a. Continue current operational approach and monitor for an additional period; or
   3. Supplement current Homeless Encampment Cleanup budget through additional funding from Fund 26 and Fund 12 reserves to meet the FY20 anticipated community demand and determine the budget on an annual basis.

SUMMARY:
Encampment Cleanup Project Background

The Safe, Clean Water Program’s Project B4 Good Neighbor Program: Encampment Cleanup (Encampment Cleanup Project) supports Santa Clara Valley Water District’s (Valley Water) ongoing coordination with local cities and agencies to clean up large creekside encampments that
contaminate waterways and damage Valley Water facilities. The KPI for the project is to perform 52 annual cleanups for the duration of the Safe, Clean Water Program.

In response to growing community demand for encampment cleanups, Valley Water has far exceeded the annual KPI by performing an average of 400 encampment cleanups a year during FYs 14-18, with the annual cost climbing to $1.5 million. As a result, the 15-year project funding was expended in the first five years of the program.

On August 28, 2018, the Board approved the Ad Hoc Committee’s recommended operational approach of funding for FYs 19-28. This approach, option #2 listed under recommendations above, was to limit the number of cleanups each fiscal year based on funding available and to monitor the approach for one year. This option includes funding for 52 cleanups through Fund 26 reserves supplemented with additional funding as a result of the Board’s prior direction to utilize 90 percent of the net rental income from properties purchased through Fund 12.

Per the Board-approved operational approach, the FY19 project budget was $925,000, anticipating Fund 12 net rental income of $750,000 in addition to $175,000 from Fund 26 reserves. The FY19 budget was a reduction from an adjusted budget of $1,500,000 in FY18.

To avoid exceeding available funding, staff reduced the frequency and number of cleanups in FY19.

**Encampment Cleanup Project Status after One Year of Monitoring**

Staff compared the cost, number of cleanups, and weight of trash removed annually in the first five years of the program (FYs 14-18) with the preliminary data for FY19. The results, shown in the table in Attachment 1, are inconclusive as to a trend in cost per encampment or cost per ton of trash. However, there is a general understanding that the greater the funding, the greater the amount of trash removed and thereby the greater the water quality benefits.

After a year of operating at a reduced level of service, fewer encampments were cleaned and less trash was removed overall. In FY19, Valley Water conducted 454 encampment cleanups, removing 820 tons of trash as compared with 582 encampment cleanups and over 1,209 tons of trash and debris removed in FY18.

The reduced funding in FY19 has had an impact on the level of customer service Valley Water provided to its agency partners and the community.

In prior years, Valley Water conducted cleanups varying from five to seven (5 to 7) days a week. As a result of reduced funding, Valley Water reduced cleanup days to about two to three (2 to 3) days per week. To minimize costs, Valley Water eliminated overtime by discontinuing weekend cleanup activities that were primarily carried out to support the City of Gilroy.

As a result of these reductions, the average response time to requests for cleanups has increased from an average of two (2) weeks to six (6) weeks. Slower response times result in repeated complaints. Access Valley Water requests regarding encampment cleanups rose to 566 in FY19.
compared with 388 in FY18. In FY17, this number stood at 296.

The program largely supports the cities of San José and Gilroy—the cities that have the largest number of creekside encampments in the county.

The City of San José has experienced the largest impact associated with reduced funding as they are our main contributing partner. Under the MOA with Valley Water, the city provides field crews via a contractor to accomplish sorting out of personal property, personal property documentation, bagging, transportation and storage; and removal of trash. The reduction in workdays has also made it difficult for the contractor to maintain a crew for which they have only part-time work.

The elimination of Valley Water staff overtime has also impacted the level of service, having the most significant impact on the City of Gilroy. Staff has eliminated alternate Friday (staff normal day off) and weekend work which was performed during the SMP work season to meet the demand and to accommodate work schedules for the City of Gilroy. The city has a relatively small police force and has historically used officers on Fridays and Saturdays for cleanups. Eliminating weekend cleanups has reduced the cleanup frequency. It has also pushed the Gilroy cleanups into the workweek coincident with the City of San José cleanups. Valley Water does not have adequate staff to conduct simultaneous cleanups while also performing other important maintenance work.

Encampment Cleanup Project Anticipated Expenditures Required to Meet Community Demand

Homelessness is growing as is evident from the 2019 Point-in-Time count, which showed that the County of Santa Clara’s overall homeless count was 9,706, an increase of 2,312 over 2017. In San José, the overall homeless count was 6,172, which is an increase of 1,822 over 2017.

Based on the increasing number of encampments along local waterways, Valley Water staff anticipates that an annual budget of approximately $925,000 during FYs 21-28, will not be sufficient to address the water quality impacts from encampments or meet the community’s demands for encampment cleanups. Encampment cleanup demand and costs have been rising over the last five years, reaching $1.5 million in 2018. With the rise in the homeless population, the demand for cleanups and the funding needs to satisfy the community demand can be expected to continue to increase.

Operational Options to Meet Encampment Cleanup Project Expenses

1. Reduce the number of cleanups each year to the B4 Key Performance Indicator (KPI) target of 52 annual cleanups for the duration of the Safe, Clean Water Program, funded by $175,000 a year from Safe, Clean Water (Fund 26) reserves.

This approach will allow Valley Water to meet the Safe, Clean Water Program’s commitment to the voters. However, the benefits of the project will be much reduced because of the significant reduction in service levels. While this approach continues to be an option, the Board rejected it in August 2018.
2. Continue with the current Board-approved operational approach to provide funding for 52 annual cleanups through Fund 26 reserves and supplement it with additional funding by utilizing 90 percent of the net rental income from properties purchased through Fund 12, resulting in an annual project budget of approximately $925,000.

This option is a continuation of the approach selected by the Board in August 2018.

Currently, 90 percent of the net rental income equates to approximately $750,000. The amount can vary depending on the rental market and the schedule for demolishing rental residences within the limits of the Upper Guadalupe River Flood Protection Project.

The combined encampment cleanup budget from the Fund 12 net rental income and the Fund 26 reserves would be $925,000 each year, adjusted annually based on fluctuations in the net rental income.

2a. Continue with current operational approach and monitor for another year.

Funding for FY20 has been approved and the project will operate at reduced service levels from prior years through this fiscal year. A variation on operational approach #2, under this course of action, monitoring would continue for an additional period of time while staff explore partnership and grant opportunities and seek mitigation credit for encampment cleanups to help offset the impact to Fund 12 and Fund 26. Staff is actively seeking mitigation credit from regulatory agencies with an outcome expected by the end of 2019 calendar year.

3. Supplement Homeless Encampment Cleanup budget through additional funding from Fund 26 and Fund 12 reserves to meet the FY20 anticipated community demand and determine the budget on an annual basis.

In FY18, to meet community demand, Valley Water expended $1.5 million on encampment cleanups. To provide a similar level of service in FY20 will require an additional $575,000, which could be funded by an additional $100,000 from Fund 26 reserve and $470,000 from Fund 12 reserve.

This option will best enable Valley Water to meet the current community demand and maintain the level of encampment cleanup service to deter re-encampments.

This option does, however, draw on Fund 26 and 12 reserves, which could impact other projects and programs and staff has yet to determine the long-term impacts of such an action. The Safe, Clean Water Program annual analysis of projects/programs with potential funding surplus and potential funding shortfall will be conducted and is currently scheduled to be presented to the Board’s Capital Improvement Program Committee in Fall 2019. However, staff has already identified numerous Safe, Clean Water capital projects with funding shortfalls. Staff will also analyze and identify long-term impacts on funds 26 and 12 reserves during the budget long-term forecast effort scheduled to be conducted in Fall 2019 as part of the FY21 annual budget development cycle.

Furthermore, with homelessness continuing to grow, the demand for additional funding may increase and it may be beneficial to evaluate and determine the encampment cleanup funding requirements
and allocations on an annual basis as part of the annual budget development process.

In consideration of the funding limitations relating to ongoing efforts to perform Project B4 Good Neighbor Program: Encampment Cleanup, staff is requesting the Homeless Encampment Ad Hoc Committee’s direction on the recommendation/s to be presented to the Board regarding the project’s operational approach for FYs 20-28.

Dear Directors Varela, Keegan, Santos, LeZotte, Hsueh, Estremera, and Kremen,

The South Bay Community Land Trust recently incorporated as a California non-profit public benefit corporation organized for exclusively charitable purposes. The specific purposes of the corporation are to acquire and manage real property for community benefit.

We intend to acquire, rehabilitate, develop, and manage property located in Santa Clara County, especially in the East Side and Downtown areas of San Jose, California.

A community land trust is a non-profit organization formed to acquire and hold land for the benefit of local communities. By removing land from the for-profit market, community land trusts insulate their housing from economic crises, preserve affordability, and ensure future access to stable housing for low-income communities. There are currently about 300 community land trusts around the country, including seven here in the Bay Area.

The purpose of South Bay Community Land Trust is to combat community deterioration, land speculation, and displacement, and expand housing and economic development opportunities for low income and moderate income residents in Santa Clara County, including very low income and extremely low income families.

The Corporation will promote neighborhood stability and community involvement in the provision of permanently affordable homeownership and equity-sharing options. It will also support the development of business facilities that serve low and moderate income residents of Santa Clara County.

We strive to preserve the quality of life for residents throughout Santa Clara County, and foster leadership through a responsible and informed board of community members. We also intend to serve as a voice for Santa Clara County’s low and moderate income community.

We are writing you with two requests.

First, we would like to enter into a long term partnership with the Santa Clara Valley Water District to identify and where possible acquire any properties that you have determined are surplus and which are suitable for our purposes.
Second, we request in particular that you donate your San Jose property at 110 South Sunset Avenue to the South Bay Community Land Trust. This property could be suitable for immediately housing a large family, or else a small group of individuals or couples in need. The Mayfair district where this home is located is one of the poorest areas in the city, and suffers some of the highest rates of eviction, displacement, and homelessness in the entire Santa Clara Valley.

As you are aware, the County’s recent homeless census found that homelessness has increased by 31% in the County and 42% in the City of San Jose in the last two years alone. As Mayor Sam Liccardo has pointed out, every time we house one homeless person, three new people become homeless.

We organized the South Bay Community Land Trust to address the root of this problem by beginning to remove land from the speculative market, and thereby permanently preserve rents at an affordable level in a way that is not possible on the private market. We believe that the Santa Clara Valley Water District shares our concern for the plight of the low income residents living in its service area, and for the need to be part of the solution to the desperate housing crisis we face in Silicon Valley. We are also aware that the homelessness that comes from this crisis seriously impacts your ability to provide the clean water that is part of your mission. Every step we can take together to help alleviate this situation will be a great benefit not only to the community, but to your work and to the environment as well.

We believe a donation of this property by the Santa Clara Valley Water District is an excellent opportunity to promote positive community relations and positive media coverage both for the South Bay Community Land Trust and for the Water District itself.

If possible, we are asking you to suspend the auction and sale of the property at 110 South Sunset Avenue long enough for the full Board to have an opportunity to discuss this potential donation. We urge you to please consider these requests, and we look forward to a long and fruitful partnership with you.

Sincerely,

Liz Gonzalez, President
South Bay Community Land Trust
