COMMITTEE AGENDA MEMORANDUM

Homeless Encampment Committee

SUBJECT:

Review and Consider Homeless Encampment Committee Name and Purpose.

RECOMMENDATION:

- A. Review and discuss the Homeless Encampment Committee name and purpose;
- B. Update the Committee purpose to remove obsolete language and align with current approaches; and
- C. Choose one of three (3) staff-recommended options to address whether to update the Committee name.

SUMMARY:

At the March 30, April 20, and July 20, 2021 meetings of Valley Water's Homeless Encampment Committee (Committee), the Committee considered staff analysis and engaged in a study session to review the Committee's purpose and consider an update to its name. Discussion of this topic originated with an anonymous employee suggestion via the CEO Inbox to update the name by removing or replacing the term "homeless." The following examination represents staff's analysis and recommendations.

Committee Purpose

The Committee was established to discuss homelessness and encampment issues and to bring discussion and recommendations back to the Board. It was initially chartered to:

- (1) Discuss public participation and public participant roles;
- (2) Discuss the Santa Clara County Housing Task Force request to adopt a Resolution;
- (3) Discuss use of Valley Water property for housing of the homeless;
- (4) Discuss the Valley Water's approach to homeless encampment abatement (sanitation vs. clean up); and
- (5) Discuss and/or prepare a Valley Water response to the County Housing Task Force's request for a Resolution, for presentation to the Board.

Of the original chartered purposes, (2) and (5) have been completed. The remaining purposes (1), (3), and (4) remain critical topics, especially as the number of individuals experiencing homelessness has increased and the community approach to treatment of these individuals has evolved since the Committee was formed.

Regarding purpose (1), public participation and participant roles will always be relevant topics of discussion for this Committee. Similarly, under purpose (4), discussion of Valley Water’s approach to encampments remains essential as it relates to Valley Water’s environmental stewardship goals. But in regard to purpose (3), while discussion of the potential use of Valley Water property for housing is an important and recurring topic, staff recommends folding it into a broader solutions-based discussion of Valley Water’s approach to encampments rather than specifically delineating it as a primary point of discussion for the Committee.

Recommendation 1: In consideration of the above analysis, staff recommends updating the Committee purpose and refining the language to the following:

The purpose of the Homeless Encampment Committee is to discuss homelessness and encampment issues and bring discussion and recommendations back to the Board. The Committee is chartered to:

- (1) Discuss public participation and public participant roles in addressing the socio-environmental crisis caused by lack of housing in Santa Clara County; and
- (2) Discuss Valley Water’s approach to preventing or mitigating the negative environmental effects of encampments located near waterways or on Valley Water property, including but not limited to consideration of solutions that might result in fewer individuals residing in these locations.

Committee Name

The CEO Inbox received an anonymous suggestion to change the Committee name to *Houseless Encampment Committee*. This suggestion exemplifies a shifting viewpoint regarding the use of the term “homeless,” which has become outdated in some circles as a way to describe groups of individuals experiencing homelessness-e.g., collectively “the homeless.” Anecdotally, through media reports and interviews, staff observes that this term may contribute to personal distress as well as stigma against individuals who are experiencing homelessness.

However, there is a lack of consensus as to whether the term “homeless” has become wholly inappropriate. Locally, neither the County of Santa Clara nor the City of San Jose utilize an official glossary of terms nor have they outright rejected the use of the term “homeless.” Among some in the media and in various communities and organizations, the use of “unhoused” has gained favor over “homeless” when referring to individual persons-e.g., an “unhoused teenager.” But in general, there is no public agreement as to a single preferred term.

More relevant to the current analysis, references to “homeless encampments” are still widely considered appropriate. At the federal level, the U.S. Department of Housing and Urban Development commissioned a 2020 report entitled *Exploring Homelessness Among People Living in Encampments and Associated Cost*, in which the term “homeless encampment” is used interchangeably with the simplified “encampment.” The Cities of San Jose and Santa Clara still utilize the term “homeless encampment” on their respective websites and in written materials. And Valley Water’s own Office of Racial Equity, Diversity & Inclusion (REDI) advised that “homeless

encampment” remains an appropriate descriptive term because it does not refer to a person or persons. Therefore, because the Committee’s current name is a reference to homeless encampments in particular, the Committee would be justified in recommending no change to its name.

Nonetheless, while perhaps not imperative, staff believe that removing the word “homeless” from the Committee name would be a sensible decision at this time. Such an update would allow the Committee to stay ahead of evolving public discourse and align with similar changes elsewhere. For example, as recommended by the Committee, the Board recently approved text modifications to “The Good Neighbor Program: Encampment Cleanup project (Project F5)” under the renewed Safe, Clean Water and Natural Flood Protection Program. These modifications removed the term “homeless” as a qualifier before “encampment” as it was deemed unnecessary.

Recommendation 2: Staff recommends that the Committee address the anonymous suggestion to update the Committee name by choosing one of the following options:

Option 1: Recommend no change and continue as the *Homeless Encampment Committee*. As discussed above, the Committee would have sufficient justification in choosing this option.

Option 2 (staff-preferred option): Recommend that the Board update the Committee name to staff’s recommendation of *Encampment Committee*, which eliminates the unnecessary qualifying term “homeless.”

Option 3: Recommend that the Board update the Committee name to any other name that the Committee may choose at its discretion.

COMMITTEE AGENDA MEMORANDUM

Homeless Encampment Committee

SUBJECT:

Update on Fencing Repair Contractor Response Times.

RECOMMENDATION:

Receive information regarding the expected response time of Valley Water's recently retained fencing repair contractor.

SUMMARY:

At the July 20, 2021 Homeless Encampment Committee meeting, the Committee received an update on Valley Water's current strategies for securing its real property. In order to expedite the repair of breached fences throughout the county, Valley Water has recently entered into a contract with a fencing repair service. The Committee requested additional details regarding the fencing contractor's response time and how long it may take to complete repair jobs.

Watersheds Operations and Maintenance staff report that the fencing repair contractor is still working out preliminary logistical details and will be ready to begin the contracted work soon. While there is no actual data on response times yet, relevant language had previously been inserted into the contract:

Contractor shall:

- a. Respond to Valley Water staff within two business days confirming receipt of request for services and complete repair within five business days.
- b. After a fence repair is complete, return to site in 5 to 10 business days to ensure the fence wasn't recut. If a repair is needed on the return visit, vendor will perform a second fence repair and bill Valley Water. Each inspection and repair will continue until fence remains in secure, proper condition.

As staff waits for the contractor to begin the contracted activities, Valley Water supervisors have been filling in the gaps to fix holes in fencing during the Stream Maintenance Program season, usually completing repairs within a day or two of receiving a complaint. Once the contractor's operation is in full swing, this will allow for a more proactive approach to fence repair and for staff to focus on core flood protection work during busy times where staff availability is typically limited.
