Recently you received an invitation from Valley Water (Santa Clara Valley Water District) regarding two upcoming virtual public scoping meetings for the proposed expansion of Pacheco Reservoir in southern Santa Clara County.

**We are reaching out to let you know the Nov. 18 and 19 meetings have been postponed.** We are working to identify new meeting dates, which will likely occur this winter. We will inform you of the new meeting dates.

We apologize for any inconvenience and appreciate your understanding.

If you would like to learn more about the Pacheco Reservoir Expansion Project, please visit [valleywater.org/pachecoexpansion](http://valleywater.org/pachecoexpansion). If you have any questions concerning these upcoming scoping meetings, please contact Mark Gomez at (408) 630-2985 or email mgomez@valleywater.org.
About Valley Water
(also known as Santa Clara Valley Water District)

Valley Water is a public agency that manages an integrated water resources system that includes the supply of safe, clean water, flood protection, and environmental stewardship on behalf of Santa Clara County’s 2 million residents. Valley Water effectively manages 10 dams and surface water reservoirs, three water treatment plants, an advanced recycled water purification center, a state-of-the-art water quality laboratory, and nearly 400 acres of groundwater recharge ponds, providing wholesale water and groundwater management services to local municipalities and private water retailers who deliver drinking water to homes and businesses.
