

Magic Cards Activity Sheet #8

Complete the crossword puzzle using the word list:

Word list
 snow river cloud glacier stream
 wave hail rain fog effluent

Across

- 2. Water falling in drops condensed from vapor in the atmosphere
- 6. Stream flowing out of a lake, wastewater treatment plant or other body of water
- 8. Visible mass of particles of condensed vapor (as water or ice) suspended in the atmosphere
- 9. On a body of water, a ridge or swell on the surface, normally having a forward motion

Down

- 1. Precipitation in the form of small balls or lumps usually consisting of concentric layers of clear ice and compact snow
- 2. Natural stream of water of usually considerable volume
- 3. Large body of ice moving slowly down a slope or valley or spreading outward on a land surface
- 4. Body of running water (as a river or brook) flowing on the earth
- 5. Precipitation in the form of small white ice crystals formed directly from water vapor of the air at a temperature of less than 32° F (0° C)
- 7. Vapor condensed to fine particles of water suspended in the lower atmosphere that differs from clouds only in being near the ground

Extra credit questions:

- 1. Put the word list in alphabetical order.
- 2. List the word list in three columns: solids, liquids and gases.
- 3. What is the difference between a cloud and fog? _____
