

Stephen Ferranti

Unit Manager

Capital Engineering

Stephen began working for Valley Water in 1986 as a junior engineer working on the design and construction of flood protection projects. During the years since, Stephen worked on construction planning and design of Valley Water flood protection projects. Stephen lead the Valley Water design and construction efforts for Lower Coyote Creek Flood Protection Project, Guadalupe River Downtown Flood Protection Project, Matadero Creek Flood Protection Project, Thompson Creek Project, Upper Guadalupe River Reach 6 Project, Coyote Creek Wetlands Project, Upper Llagas Creek Flood Protection Project, Sunnyvale East and West Channels Flood Protection Project, and many others. Prior to joining the SCVWD, Stephen worked for the Bureau of Reclamation on the San Felipe Water Project (San Luis Reservoir to Anderson Reservoir). Stephen graduated with a Bachelor of Science Degree in Civil Engineering from California Polytechnic State University in San Luis Obispo and is a fifth generation resident of Santa Clara County.
