

We are working in your neighborhood creek!

Stevens Creek at Moffett Boulevard Bank Repair

The Santa Clara Valley Water District will work in your neighborhood to repair an eroded bank site along Stevens Creek, near Highway 85 in Mountain View.

This project will repair 300 feet of creek bank that has eroded during the past winter storms and remove fallen vegetation. The banks will be reshaped and lined with rock to prevent future erosion and improve water quality in the channel. The repairs will also minimize sediment build-up and improve the creek's capacity to carry floodwaters, while maintaining a stable and healthy creek ecosystem.

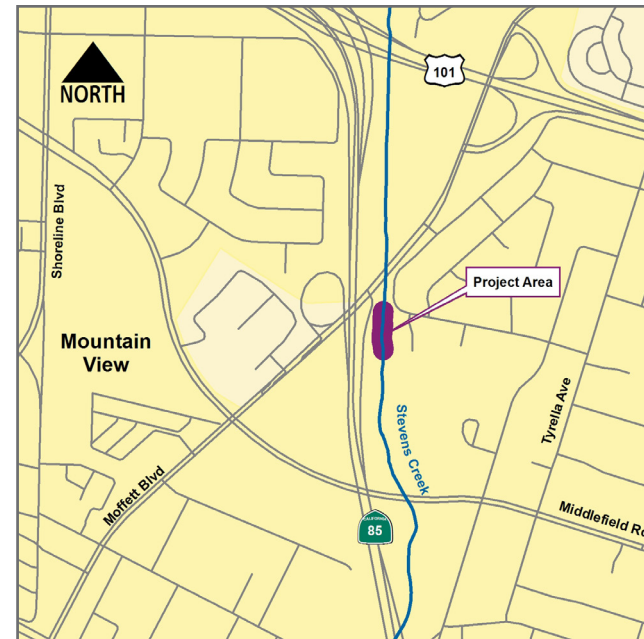

What to expect

Work is planned to begin July 10th and will take approximately 40 days to complete. Work hours are 8 a.m. to 4 p.m., Monday through Friday.* In the unlikely event of delays, work hours may include Saturday.

A five-person crew will work at the project site using an excavator, a loader, a compactor, dump trucks, water trucks and street sweepers. Expect typical construction noise during work hours from operating heavy equipment.

Trucks and crews will access the creek from Moffett Blvd. Expect no road or trail closures, but traffic control or flaggers may be needed at times during work for safety.

*Project start dates and duration may vary due to site conditions and equipment availability
