4.1. Approval of Minutes. 20-0011

Recommendation: Approve the December 11, 2019, Meeting Minutes.
Manager: Michele King, 408-630-2711
Attachments: Attachment 1: 121119 DRAFT Mins
Est. Staff Time: 5 Minutes

5. INFORMATION ITEMS:
A. This agenda item allows the Committee to receive verbal or written updates and discuss the following subjects. These items are generally informational; however, the Committee may request additional information from staff:

B. This is informational only and no action is required.

1. Update on Los Vaqueros Reservoir Expansion Project (LVE) Transfer Bethany Pipeline (TBP) (Metra Richert) and Update on Management of South Bay Aqueduct (SBA) Facilities (Erin Baker)

   Report:
   - Valley Water staff attended the Joint Powers Authority (JPA) and Service Agreement (i.e., term sheet) workshop held by Clean Energy Capital (CEC) and Contra Costa Water District (CCWD). Topics discussed included the allocation of fixed and variable costs, Local Agency Partner (LAP) creditworthiness, and other project cost-related topics; as well as the term and post-term of the agreement, off-ramps, and services to be provided.
   - Independent reviewers of the project (existing facility) usage fees released a draft evaluation report to the LAPs and facility owners CCWD and East Bay Municipal Utility District (EBMUD). The report provides commentary on the calculation and application of various fee components proposed by CCWD and EBMUD. The final report is expected to be circulated by early 2020.
   - Selection of legal counsel to develop the draft JPA formation documents is underway, and expected to be complete in December.
   - Staff are evaluating Bay Area Water Supply & Conservation Agency (BAWSCA)/San Francisco Public Utilities Commission request to convey, treat and transfer their LVE Project water through the South Bay Aqueduct (SBA), Valley Water’s Water Treatment Plants, and the Milpitas Intertie. Several concept scenarios have been provided to Valley Water staff for analysis, many which differ in timing and reliance on SBA and Valley Water facilities. Staff have requested additional details and
refined scenarios from SFPUC and BAWSCA.

- Valley Water executive management met with General Managers of other LAPs on December 9, 2019 to discuss proposed use of SBA facilities to convey LVE project water for BAWSCA and SFPUC. The meeting focused on discussion of current SBA infrastructure conditions and assessments, and the potential issues with increased reliance on the SBA given current facility limitations (e.g., reduced operational capacity).
  a. Valley Water staff is coordinating a meeting between DWR Director Karla Nemeth, the South Bay Aqueduct Contractors (SBC), and other Los Vaqueros Expansion project partners including BAWSCA and SFPUC to discuss the use of the South Bay Aqueduct for the LVE project. Additionally, the SBC are working to hire a consultant to assess available SBA capacity to use as part of the LVE project.

2. Lake Del Valle (Cindy Kao)
   Report: There is nothing to report at this time.

3. Del Puerto (Cindy Kao)
   Report: There is nothing to report at this time.

4. Water Banking Opportunities including but not limited to Pleasant Valley Water District (Cindy Kao)
   Report: See Agenda Item 6.1.

5. Pacheco (Christopher Hakes)
   Report: There is nothing to report at this time.

6. Semitropic (Cindy Kao)
   Report: Staff will be giving a verbal update at the January 15, 2020, meeting.

7. Sites (Cindy Kao)
   Report: Staff will be giving a verbal update at the January 15, 2020, meeting.
8. San Luis Reservoir Low Point  
(Christopher Hakes)  
**Report:** There is nothing to report at this time.

9. B.F. Sisk Dam Raise Project (Cindy Kao)  
**Report:** Staff will be giving a verbal update at the January 15, 2020, meeting.

10. Shasta (Cindy Kao)  
**Report:** There is nothing to report at this time.

COMMITTEE AGENDA MEMORANDUM

Water Storage Exploratory Committee

SUBJECT:
Proposed Groundwater Banking Projects (Comparison Matrix)

RECOMMENDATION:
Receive and discuss information regarding staff development of a comparison matrix used to analyze and compare proposed groundwater banking projects. This is an information-only item and no action is required.

SUMMARY:
Santa Clara Valley Water District (Valley Water) staff have been exploring different groundwater banking opportunities as well as surface storage projects to diversify and potentially expand its storage capabilities. This effort is relevant given that projections of climate change impacts indicate that future water supplies will likely come in concentrated and shorter wet periods that will result in large slugs of water that may require additional storage facilities to capture. At the same time, sea level rise will likely increase salinity intrusion into the Delta, which may reduce the availability of SWP and CVP supplies during drier years, increasing Valley Water’s reliance on stored supplies.

Groundwater Banking Projects

The current groundwater banking projects under investigation by Valley Water are as follows:
- Antelope Valley-East Kern ‘High Desert’ Groundwater Bank in Antelope Valley near Mojave;
- North San Joaquin Valley;
- Buena Vista Water Storage District (WSD) Groundwater Bank in Northern Kern County;
- Friant area banking;
- Mojave Water Agency Groundwater Bank in Apple Valley (Mojave Desert);
- Sacramento Regional Water Bank proposed near Roseville and Sacramento;
- Pleasant Valley Water District Groundwater Bank near Coalinga and Avenal.

A map of these projects relative to Valley Water is provided as Attachment 1. The location of the Semitropic Groundwater Bank, which Valley Water has already invested in, is also shown in Attachment 1. Valley Water staff are actively coordinating with banking program representatives to review operational and proposed financial details of each project and are evaluating the compatibility of these projects with other Valley Water water supply and storage projects. These projects differ by physical location, storage and recovery mechanics, local groundwater management under SGMA, and several other factors.
Comparison Matrix

To assist in the comparison of potential groundwater banking projects, staff are developing a ‘comparison matrix’ table (Attachment 2) used to outline key factors and considerations. The comparison matrix is intended to help guide Valley Water’s discussions and review in a consistent format.

Attachment 2 provides a sample comparison matrix filled out for Semitropic. Staff will continue to refine the evaluation criteria and fill in the table as the analysis for other groundwater banking projects progresses.

COMMITTEE AGENDA MEMORANDUM

Water Storage Exploratory Committee

SUBJECT:
Review Water Storage Exploratory Committee Work Plan and the Committee’s Next Meeting Agenda.

RECOMMENDATION:
Review the Committee’s Work Plan to guide the Committee’s discussions regarding policy alternatives and implications for Board deliberation.

SUMMARY:
The Committee’s Work Plan outlines the Board-approved topics for discussion to be able to prepare policy alternatives and implications for Board deliberation. The work plan is agendized at each meeting as accomplishments are updated and to review additional work plan assignments by the Board.

BACKGROUND:

Governance Process Policy-8:
The District Act provides for the creation of advisory boards, committees, or committees by resolution to serve at the pleasure of the Board.

Accordingly, the Board has established Advisory Committees, which bring respective expertise and community interest, to advise the Board, when requested, in a capacity as defined: prepare Board policy alternatives and provide comment on activities in the implementation of the District’s mission for Board consideration. In keeping with the Board’s broader focus, Advisory Committees will not direct the implementation of District programs and projects, other than to receive information and provide comment.

Further, in accordance with Governance Process Policy-3, when requested by the Board, the Advisory Committees may help the Board produce the link between the District and the public through information sharing to the communities they represent.
